Career Objective

An aspiring final year MCA student with strong foundations in Data Structures and Algorithms, Java, C, and Full Stack Web Development. Seeking an entry-level Software Development role where I can apply my technical skills, contribute to innovative projects, and grow as a software engineer.

Technical Skills

- **Languages:** Java, C
- **Web:** HTML, CSS, JavaScript
- **Database:** MySQL
- **Core:** Data Structures & Algorithms, OOPs, DBMS, Operating Systems, Computer Networks
- **Tools:** VS Code, GitHub, MySQL Workbench, MS Office 365
- **Cloud:** Microsoft Azure, Databricks

Internship

Full Stack Development Intern

Nov 2024 – Feb 2025

Technology Business Incubator (TBI-GEU)

- Applied full-stack web development and software engineering best practices.
- Enhanced UI and website functionalities through feature implementation and design improvements.
- Debugged and optimized web applications to improve performance and user experience.

Projects

Deep Learning Based Automated Brain Tumor Detection and Multi-Class Classification

Python, Flask, TensorFlow/Keras, HTML, CSS, JavaScript, SQLAlchemy

- Built an AI-powered web application to detect and classify brain tumors from MRI scans using CNN.
- Integrated Flask backend with TensorFlow/Keras model for real-time inference.
- Developed a responsive frontend with secure login, image upload, and prediction display.

Open Article Summarizer Using GPT-4

React.js, Node.js, JavaScript, GPT-4 API, HTML, CSS

- Built a full-stack AI-powered article summarization web application using React.js, Node.js, and GPT-4 API.
- Integrated GPT-4 API to generate real-time summaries, reducing article length by 60–80% while preserving key information.
- Developed three core modules including article input, summary generation, and responsive result visualization.

Education

Master of Computer Applications (MCA)

2025–2027

GL Bajaj College of Technology and Management

CGPA: 8.30

Bachelor of Computer Applications (BCA)

2022–2025

Graphic Era Deemed to be University, Dehradun

CGPA: 7.90

Class XII

2021–2022

DS Public School, Muzaffarnagar

Percentage: 77.8%

Certifications

Microsoft Azure Training – Microsoft Learn & FICE

Feb 2026

- Completed a 25-hour training program on Microsoft Azure cloud fundamentals.
- Gained hands-on knowledge of Azure Virtual Machines, Networking, Storage, and Identity Management.
- Learned cloud deployment concepts and core Azure services for application hosting and management.

Full-Stack Web Development – VOIS & Edunet Foundation

Jul 2026

- Completed a certified training program on full-stack web development fundamentals.
- Gained practical exposure to front-end and back-end development concepts and workflows.

Getting Started with Artificial Intelligence – IBM SkillsBuild

Jul 2026

- Completed IBM SkillsBuild training covering foundational AI concepts and applications.
- Learned core principles of artificial intelligence, its real-world use cases, and industry relevance.
- Learned to build real-world projects using IBM BOB as part of hands-on training.
